Boulet boots are renowned for their unsurpassed quality. Every pair is carefully handcrafted respecting the old traditions. All adult boots are entirely leather lined for greater comfort. The famous Boulet brand is sold in North America and Europe. Here are some of the construction features that have earned Boulet its reputation of finest quality.

1

SIDE WELT

Seams and quarters are bevelled and stitched from the inside, trimmed close and pressed flat for better appearance and comfort.

2

VAMP FITTING STITCH

Multi-row stitching using attractive nylon thread gives the entire boot more strength and durability.

3

VAMP

The front foot of the boot that covers the toes and instep is stretched for perfect fit.

4

TOE BO

The toe area is moulded onto the shape of the last for perfect shape and protection.

5

COUNTER

A stiff piece treated for best quality is inserted inside the boot to give the heel area an excellent support.

6

GOODYEAR WELT

A quality Goodyear leather welt, especially treated for best resistance, is sewn to the leather outsole with a strong interlocking stitch.

7

STEEL SHANK

A strong steel shank, shaped for the exact fit of the arch, is utilized to give the Boulet boot comfort and support.

8

CORK PAD

A pad made with compact cork, between leather insole and leather outsole, gives more comfort and better insulation.

The insole will progressively mould to the shape of your foot

9

PEG

One row of pegs firmly locks the shank area.

10

BACK QUARTERS

A piece of leather is sewn to the upper back of the boot for additional support.
